RONA LENZI
LARES FAMILIARES

In the Roman world, and the Medieval one, the Lares were divinities associated with the household. They were kept in a special place - the Lararium - at the heart of the house, where they were worshipped with the help of offerings and sacrifices. The Lares were considered the protectors of the family and the household, and their presence was essential for the well-being of the family. In the Roman world, the Lares were considered the protectors of the family and the household, and their presence was essential for the well-being of the family. In the Medieval world, the Lares were considered the protectors of the family and the household, and their presence was essential for the well-being of the family.
